

***A Conversation about the Neighbourhood Justice Centre: Louise Glanville, Director of the Neighbourhood Justice Centre Project will answer some of our questions about how the new Centre will operate and, in particular, how it will reflect restorative justice principles and practice.***

*“The development of the Neighbourhood Justice Centre (NJC) reflects a worldwide and growing interest in addressing the underlying causes of criminal behaviour and disadvantage and improving access to justice. It is based on, and driven by, therapeutic and restorative approaches to justice.*

*At the core of this approach is the concept of partnership, between courts and communities, local and state governments, traders and community organisations, and individuals and service providers. These partnerships assist in the resolution of local crime and safety issues.” (Source: Neighbourhood Justice Centre Project Overview Document)*

When; 5 –7.00 pm April 26<sup>th</sup> 2006

Where; The Edinburgh Gardens Community Room, 605 Brunswick Street, Nth Fitzroy (old Fitzroy fans will love this because the venue is located in the former social club below the old Fitzroy Football Club Grandstand set in some lovely gardens and overlooking the old ground – Mel ways Map C2, ref: c2.
